

The Versatile LEGO Truck

Learning Curves

1. Layout the LEGO bricks using the **Setup Pattern** page
2. Start the clock, open this booklet, **build the truck** using the instructions given.
3. When built, stop the clock, and **record your time** in the box on the **Record Results** page.
4. Close this booklet and **dismantle** your LEGO truck.
5. **Round Two** – layout the bricks again using the **Setup Pattern** page.
6. Once the bricks are laid out, start the clock, open this booklet, and **build the truck** again.
7. When built, stop the clock, and **record your second time** in the box on the **Record Results** page.
8. Don't dismantle your truck! **Complete the calculations** on the **Record Results** page.

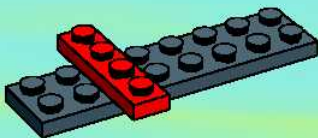

Use these instructions to build the truck:
